## **L'Econome by Starck** Degrenne Paris

Created by visionary designer Philippe Starck, the L'Econome by Starck collection from Degrenne Paris comprises stackable and modular bowls and plates along with cutlery sets such as the multifunctional Acolytes, which helps save space. Combining practical crockery with a contemporary design and understated lines, on top of mixing enamelled and satin-like materials in a selection of pastel colours including yellow, pink, green, grey and white, the elegant range ensures that dishes stand out on the table.
