2010 issue

## **SUPER IMPOSSIBLE**

Design Philippe Starck with Eugeni Quittlet

The little armchair with the egg-shaped seat, Mr Impossible is transformed by its surprising new shiny look. The new solid colour finish gives it a glossy, sensual and striking look. The plain colours come in bright hues: white, red and black, while the two tone is optical, black and white in the double version (black seat and white legs and vice versa).

Like Mr Impossible, the small Super Impossible armchair is formed of two laser-welded polycarbonate shells.

Material: batch coloured polycarbonate  
Size: L. 55 cm, H. 84 cm, W. 54 cm, H. seat 46 cm  
Colours: glossy white, glossy black, glossy red
