## TORQUEMADA

By Philippe Starck

At this 2017 edition of the Salone del Mobile, Driade and world renowned creator Philippe will unveil their new collection: Torquemada.

The collection is a tribute to the elegance of minimum, a voyage in our common Human memory when honesty and function prevailed over fashion exigencies. The handcrafted quality of the material (oak or gouged oak for a more precious version) and the simplicity of the lines are balanced by the modernity and sophistication of the metallic handcuffs in mirror-polished stainless steel that bind the chairs' pieces together.

“Very often we have bad opinion about the man of Cro-Magnon, his friend from Neanderthal and the Flintstones family. Yet, they were more sophisticated that we think. Hopefully.” Philippe Starck

“One day, Snow White came for dinner at the Flintstones family home. During dinner the seven dwarfs painted the chairs with fun colors. Scandal!  
But finally with time, they loved them.” Philippe Starck.

The table, chairs and stool are available in natural color oak, and the chairs and stools are also, available in the following colour options: white, yellow, grey pastel lavender and pink.

### TECHNICAL DETAILS

Size of the table: 210x80x73cm

Size of the chair: 41x48x77,5 cm

Size of the armchair: 54x48x77,5 cm

Size of the stool: 41x48x103 cm
