Starck for Baccarat: Crystal Dream

A strikingly paradoxical combination of light diffracted by the clearest of crystal and the brilliantly sombre glint of black onyx, the DARKSIDE collection designed by Philippe Starck has continuously reinvented the tradition of black crystal, a signature style close to the heart of Baccarat, since 2005.

The new **CRYSTAL DREAM** furniture collection, launched in 2012 at the Milan Salone, takes a fresh look at the unashamed luxury of black crystal, with two new creations from the unique genius of Philippe Starck, the world of design's drollest agent provocateur.

Until very recently made only to order, the **Crystal Supper Black** table and the **Small Crystal Supper Black** table are now available from the catalogue: from the brilliant light of day to inky shades of darkness, Baccarat and Philippe Starck have created an alchemy of crystal in all its quintessential brilliance.
