WAR FLAGS[®]

By Philippe Starck (with Babinet & Co)

INTERNI Cre-Action
Exhibition-Event / Fuori Salone 2025

April 7 – 17th, 2025
Orto Botanico di Brera
via Fiori Oscuri 4 - via Brera 28
Milan

HATE UNLIMITED KORPORATION NEW POLICY

Hate Unlimited Korporation has long been dedicated to promoting hate in all its most liberated shapes and sizes throughout the world. Its raison d'être has always been to ensure that its circulation knows no bounds, and that it can reach all levels of social life: planetary, continental, international, national, regional, urban, rural, communal, domestic, fraternal. Today, it has to be said, the bet has paid off: hate seeps through, forges new paths every second.

However, success has a price, and we can all agree that it is growing more difficult each day to find one's bearings through the blurred lines of these new landscapes. This is why Hate Unlimited Korporation is now expanding its mission by publishing a catalog of flags. It is designed to help everyone – individuals, armed groups, private militias, gangs, states – first to find their way, then to find others. It will also showcase a large choice of merch, to add visibility, strength, and inhumanity to any occasion or event. With this new ambition, the H.U.K. is confident that not only will hate circulate more freely, but that its many currents will be better identified and respected. This inaugural H.U.K. repertoire is, without a doubt, the first in a long series that we will enrich over time, nights, and wars.

NIGHT FLAGS

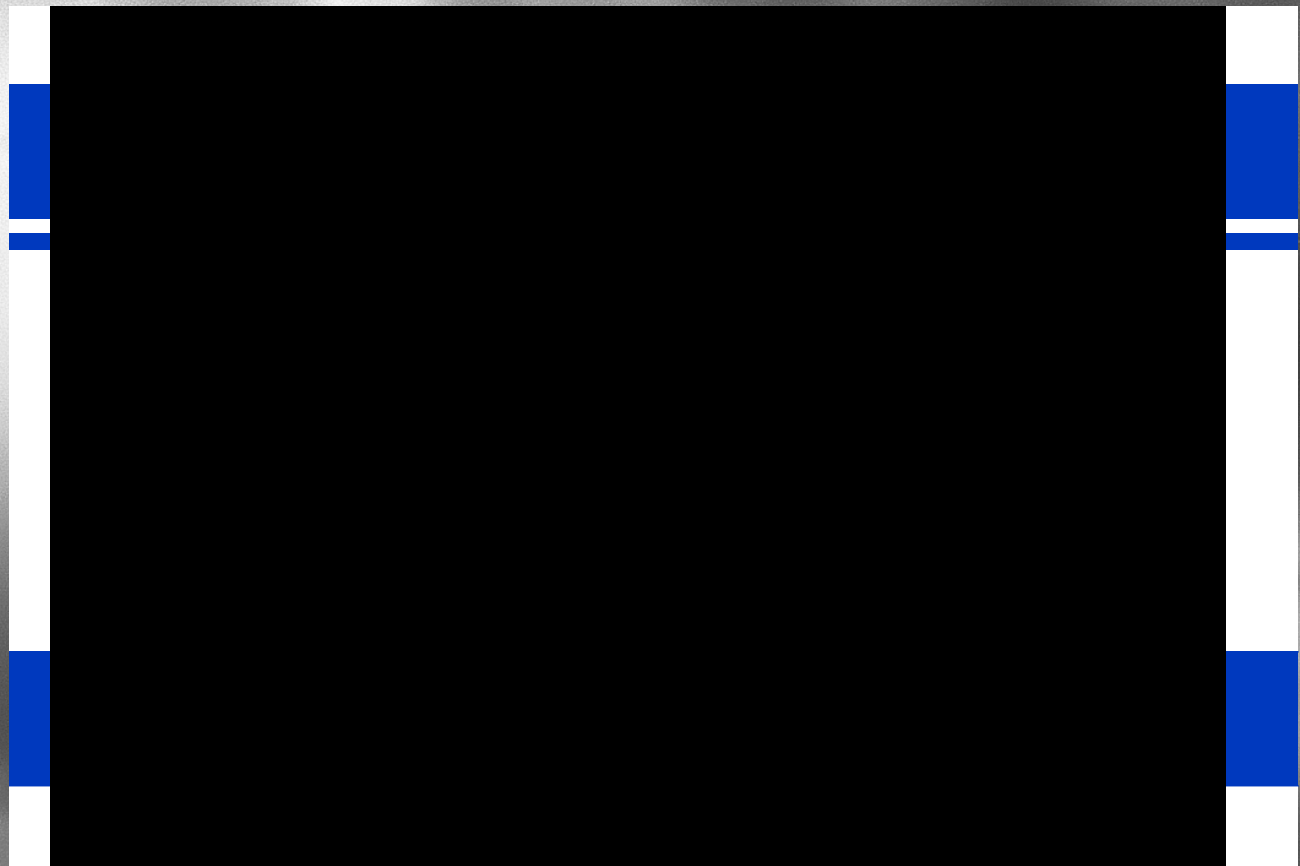

All over the world, these flags will help you measure the progress of the descending night and allow you to check at any time, and quite accurately, the degree of darkening underway. To quantify and encourage such darkening is one of the missions of Hate Unlimited Korporation. Nothing should escape it: everything we believe in, everything we love, everything we are, all the colors life used to wear.

HATE FLAGS

New logos must flood our minds. They aim, typically, at clarifying what is on the market, as well as creating a traceable ripple effect. They will often be more efficient than watchwords. Naturally, the flags showcased here are merely fundamentals; Hate Unlimited Korporation will very soon announce better-developed collections representing more sophisticated states of hate.

FORMATS ————— available in 666 sizes ●

ISO STANDARDS ————— 13934 - tensile strength ●
13982 - chemical protection ●
11612 - heat and flame protection ●
13938 - fabric burst strength ●
